Profile summary

Self-driven IT enthusiast and proactive software developer, I transitioned careers in 2018 to pursue my passion. Starting as a QA tester, I quickly immersed myself in web development, specializing in Front-End development, and mastering **HTML**, **CSS**, **PHP**, **JS** and **WordPress**. I've crafted numerous websites and UIs, embracing modern design principles.

Relevant work experience

Current Personal Projects

Presently, I am engaged in developing a WordPress plugin Hub (WP Plugin Galaxy). The website is constructed using React, and my focus is on creating multiple plugins to actively contribute to the WordPress community. Although the site is a work in progress, you can access it through the following link [↗](#).

Interests

History, botanic, computer games, cooking, reading, traveling, gym and team sports.
