Profile summary

A self-driven, proactive worker with a passion for IT and software development. I switched careers in 2018 to pursue my longtime passions. Since then, I have been learning new skills and building software every year.

- The main focus in my studies of web development has been **HTML**, **CSS**, **Bootstrap**, **JavaScript** (ES6) and **GIT**. Using these skills, I have created multiple websites to gain professional experience.
- I am familiar with modern **web design concepts** such as mobile-first design, cross-browser compatibility, and search engine optimization.
- I have a thorough understanding of **OOP** (object oriented programming) with JavaScript as well as **JSON** knowledge.
- My natural curiosity of how everything works, especially the Web, led me to explore Back-end technologies and learn some **SQL** and **PHP**.
- I recently turned my focus to furthering my JavaScript skills by working more with vanilla Javascript and learning **ReactJS** (*City University of London Course*).

Relevant work experience

Web Developer for **Blubale Ltd** 📁 - Sep 2021 – Dec 2021 - Remote, UK.

- Assistance with the solution of design issues prior to initiating the development process.
- +3000 lines of code in various HTML, CSS, JavaScript and PHP files were written to build a landing page based on the Figma design provided by the employer.
- I managed to shorten the client's forecast by 2 months, enabling the client to obtain the benefits of having the website earlier than expected.

QA Junior Tester for **Amelco UK Ltd** 📁 - Oct 2018 – Apr 2020 - London, UK.

- Testing site on dozens of devices using 5 different browsers to ensure compatibility and responsiveness across browsers.
- Several different projects gave me the opportunity to resolve +1000 Jira tickets and create about 300 bug reports.
- Being a member of an Agile development team requires me to communicate effectively with a team of designers, engineers, and clients on a daily basis.

Tour Guide for **Sandemans New Europe Tours** - Jun 2013 – Sep 2018 - London, UK.

- For more than five years, I have guided +2000 groups of travelers from different backgrounds around London's highlights, teaching them its history in an entertaining and didactic manner, and always getting positive reviews on Google and TripAdvisor.
- The walking tours required excellent communication skills, strong leadership, and speed in solving a variety of problems that have arisen along the way.

Some software personal projects

First Portfolio - [↗](#)

Fully responsive and modern designed Personal Portfolio.

HTML, CSS / Sass, JavaScript, VS Code, Git, Github

Customized Productivity Desktop Wallpaper Tool - [↗](#)

A desktop web tool that provides a customized Productivity desktop wallpaper.

HTML, CSS / Sass, JavaScript, VS Code, Git, Github

Fake Hosting Site - [↗](#)

Fully responsive website as the final practice of a Front End course (*codewithmosh.com*).

HTML, CSS, JavaScript, VS Code, Git, Github

Jack The Ripper Educational App (Spa) - [↗](#)

An educational android app based on Jack the Ripper's crimes. The project was a hybrid of my previous work in the tourism industry and my new goal as a developer. I made the content, but used a third-party framework (mobincube) to build it.

You can find more of my projects searching on my [Github repositories](#).
