## Front-End Developer

✉ [julian.c.dev@gmail.com](mailto:julian.c.dev@gmail.com) - ☎ 07402688833 - 🌐 [github.com/julian-c-dev](https://github.com/julian-c-dev) - 🖥 [julian-c-dev-portfolio.netlify.app](https://julian-c-dev-portfolio.netlify.app)

I am a self-motivated and proactive individual who switched careers to pursue longstanding passions for IT and web development. Since then, I have been learning new skills and building software. I aim to advance my career in this field and tackle new challenges as a Front-End Developer.

## Work experience

### Web Developer for Blubale Ltd

Sep 2021 – Dec 2021 - Edinburgh, UK (remote position)

My first job as a professional Web Developer was to build a landing page from scratch based on a Figma design provided by the client. It was a freelance job.

HTML, CSS / Sass, JavaScript, VS Code, Git, Github, Figma.

### QA Junior Tester for Amelco UK Ltd

Oct 2018 – Apr 2019 - London, UK

I worked as Quality Analyst for Amelco, a company that works following the *Agile* methodology, providing software solutions for pricing and trading services to the online betting sector. My specific role involved:

- Manual software testing on multiple devices and browsers.
- Applying technical skills to different scenarios.
- Translations: Spanish to English.

Jira, pgAdmin (postgresql), browser dev tools (Firefox & Chrome).

## Last projects & practices

### First Portfolio

Dec 21 & Jan 2022

Fully responsive First Portfolio.

HTML, CSS / Sass, JavaScript, VS Code, Git, Github

### Desktop Wallpaper Tool

May & June 2021

A desktop web tool that provides a customized Productivity desktop wallpaper. The main purpose was to practice how to modify the DOM with JavaScript.

HTML, CSS / Sass, JavaScript, VS Code, Git, Github

### Fake Hosting Site

March & April 2021

Fully responsive website as the final part of a Front End course (*codewithmosh*).

HTML, CSS, JavaScript, VS Code, Git, Github

### Educational App

May to October 2020

An educational android app based on the crimes of Jack the Ripper. The project was a hybrid between one of my last jobs on tourism field and my new goal as developer. I made the content but I used a third-party framework (*mobxincube*) to develop the app.

You can find more of my projects searching on my [Github repositories](#).  
References upon request.

## Skills

### Very confident:

HTML, CSS/Sass

### Confident:

JavaScript (ES6), React, SQL

### Tools & platforms I have used:
